Datasheet

TAF1C purified MaxPab rabbit polyclonal antibody (D01P)

Catalog Number: H00009013-D01P

Regulation Status: For research use only (RUO)

Product Description: Rabbit polyclonal antibody raised against a full-length human TAF1C protein.

Immunogen: TAF1C (AAH28131.1, 1 a.a. ~ 775 a.a) full-length human protein.

Host: Rabbit

Reactivity: Human

Applications: WB-Tr
(See our web site product page for detailed applications information)

Protocols: See our web site at http://www.abnova.com/support/protocols.asp or product page for detailed protocols

Storage Buffer: In 1x PBS, pH 7.4

Storage Instruction: Store at -20°C or lower. Aliquot to avoid repeated freezing and thawing.

Entrez GeneID: 9013

Gene Symbol: TAF1C

Gene Alias: MGC:39976, SL1, TAFI110, TAFI95

Gene Summary: Initiation of transcription by RNA polymerase I requires the formation of a complex composed of the TATA-binding protein (TBP) and three TBP-associated factors (TAFs) specific for RNA polymerase I. This complex, known as SL1, binds to the core promoter of ribosomal RNA genes to position the polymerase properly and acts as a channel for regulatory signals. This gene encodes the largest SL1-specific TAF. Two transcripts encoding different isoforms have been identified. [provided by RefSeq]
