

## BSE / TSE Statement

---

### VWR\* CUVETTES

---

This document certifies that the below mentioned product meet the following criteria:

<b>North American Catalog N°:</b>	97000-586
<b>Description:</b>	VWR CUVETTES PS S-MCRO CS500

This document certifies that, the production of the resins used for manufacturing the product contains additives of animal Origin which may be used from the manufacture of the raw material. Those products (tallow derivatives like fatty acids, fatty alcohols etc), are incorporated into plastics as lubricants, slip agents, anti-static agents as well as emulsifiers. The tallow derivatives used for the production of plastics undergo a series of severe process steps during manufacture, inactivating completely BSE- (Bovine Spongiform Encephalopathy)/ TSE (Transmissible Spongiform Encephalopathy) contaminations according to the Commission Directive 2000/6/EC, in the updated report of APAG of April 2001 and also in the regulation EC N.1774/2002.

And, The Suppliers of the raw material declares that the tallow derivatives are Category 3 and are manufactured under the conditions given in the note for Guidance EMEA/410/01, part 6.4

Signed:

A handwritten signature in blue ink, appearing to read "Ken Crossley", with a stylized flourish at the end.
