

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Revision Date 02/09/2015

Version 1.2

## **SECTION 1.Identification**

#### Product identifier

Product number 814868

Product name Trioctylphosphinoxide for synthesis

CAS-No. 78-50-2

## Relevant identified uses of the substance or mixture and uses advised against

Identified uses Chemical for synthesis

# Details of the supplier of the safety data sheet

Company EMD Millipore Corporation | 290 Concord Road, Billerica, MA 01821,

United States of America | General Inquiries: +1-978-715-4321 | Monday to Friday, 9:00 AM to 4:00 PM Eastern Time (GMT-5)

Emergency telephone 800-424-9300 CHEMTREC (USA)

+1-703-527-3887 CHEMTREC (International)

24 Hours/day; 7 Days/week

#### **SECTION 2. Hazards identification**

## **GHS Classification**

Eye irritation, Category 2A, H319

For the full text of the H-Statements mentioned in this Section, see Section 16.

## **GHS-Labeling**

Hazard pictograms

Signal Word Warning

Hazard Statements

H319 Causes serious eye irritation.

## Precautionary Statements

P264 Wash skin thoroughly after handling.

P280 Wear protective gloves/ eye protection/ face protection.

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact

lenses, if present and easy to do. Continue rinsing.

P337 + P313 If eye irritation persists: Get medical advice/ attention.

#### Other hazards

None known.

#### SECTION 3. Composition/information on ingredients

Formula  $(C_8H_{17})_3PO$   $C_{24}H_{51}OP$  (Hill)

Molar mass 386.64 g/mol

## Hazardous ingredients

Chemical Name (Concentration)

CAS-No.

tri-n-octylphosphine oxide (>= 90 % - <= 100 % )

78-50-2

Exact percentages are being wihtheld as a trade secret.

## **SECTION 4. First aid measures**

#### Description of first-aid measures

Inhalation

After inhalation: fresh air.

Skin contact

After skin contact: wash off with plenty of water. Remove contaminated clothing.

Eye contact

After eye contact: rinse out with plenty of water. Call in ophthalmologist.

Ingestion

After swallowing: immediately make victim drink water (two glasses at most). Consult a

physician.

Never give anything by mouth to an unconscious person.

## Most important symptoms and effects, both acute and delayed

Shortness of breath, gastric pain, Dizziness, Nausea, Vomiting, Irritation and corrosion

## Indication of any immediate medical attention and special treatment needed

No information available.

## **SECTION 5. Fire-fighting measures**

#### Extinguishing media

Suitable extinguishing media

Carbon dioxide (CO2), Foam, Dry powder, Water

Unsuitable extinguishing media

For this substance/mixture no limitations of extinguishing agents are given.

#### Special hazards arising from the substance or mixture

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

Combustible material

Development of hazardous combustion gases or vapors possible in the event of fire.

Fire may cause evolution of:

phosphines, Oxides of phosphorus

#### Advice for firefighters

Special protective equipment for fire-fighters

Stay in danger area only with self-contained breathing apparatus. Prevent skin contact by keeping a safe distance or by wearing suitable protective clothing.

Further information

Prevent fire extinguishing water from contaminating surface water or the ground water system.

Suppress (knock down) gases/vapors/mists with a water spray jet.

# SECTION 6. Accidental release measures

#### Personal precautions, protective equipment and emergency procedures

Advice for non-emergency personnel: Avoid substance contact. Avoid inhalation of dusts. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: Protective equipment see section 8.

## **Environmental precautions**

Do not empty into drains.

#### Methods and materials for containment and cleaning up

Cover drains. Collect, bind, and pump off spills.

Observe possible material restrictions (see sections 7 and 10).

Take up dry. Dispose of properly. Clean up affected area. Avoid generation of dusts.

## SECTION 7. Handling and storage

#### Precautions for safe handling

Observe label precautions.

#### Conditions for safe storage, including any incompatibilities

Tightly closed. Dry.

Store at +15°C to +25°C (+59°F to +77°F).

#### SECTION 8. Exposure controls/personal protection

#### Exposure limit(s)

Contains no substances with occupational exposure limit values.

#### **Engineering measures**

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment.

#### Individual protection measures

Protective clothing should be selected specifically for the workplace, depending on concentration and quantity of the hazardous substances handled. The chemical resistance of the protective equipment should be inquired at the respective supplier.

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

# Hygiene measures

Change contaminated clothing. Wash hands and face after working with substance.

# Eye/face protection

Safety glasses

#### Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

## Other protective equipment:

protective clothing

## Respiratory protection

required when dusts are generated.

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

#### SECTION 9. Physical and chemical properties

Physical state crystals

Color white

Odor sweet

Odor Threshold No information available.

pH No information available.

Melting point 50 - 54 °C

Boiling point/boiling range 414 °F (212 °C)

at 39.99 Pa

Flash point 486 °F (252 °C)

Evaporation rate No information available.

Flammability (solid, gas) No information available.

Lower explosion limit No information available.

Upper explosion limit No information available.

Vapor pressure No information available.

Relative vapor density No information available.

Density 0.88 g/cm<sup>3</sup>

at 77 °F (25 °C)

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

Relative density No information available.

Water solubility < 1 g/l

at 68 °F (20 °C)

Partition coefficient: n-

octanol/water

No information available.

Autoignition temperature No information available.

Decomposition temperature No information available.

Viscosity, dynamic No information available.

Explosive properties No information available.

Oxidizing properties No information available.

Ignition temperature 608 °F (320 °C)

## SECTION 10. Stability and reactivity

#### Reactivity

Forms explosive mixtures with air on intense heating.

The following applies in general to flammable organic substances and mixtures: in correspondingly fine distribution, when whirled up a dust explosion potential may generally be assumed.

#### Chemical stability

sensitive to moisture

#### Possibility of hazardous reactions

Violent reactions possible with:

Oxidizing agents

#### Conditions to avoid

Strong heating.

A range from approx. 15 Kelvin below the flash point is to be rated as critical.

# Incompatible materials

no information available

#### Hazardous decomposition products

in the event of fire: See section 5.

## **SECTION 11. Toxicological information**

### Information on toxicological effects

Likely route of exposure

Eye contact, Skin contact, Ingestion

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

Acute oral toxicity

LD50 Rat: > 10,000 mg/kg (External MSDS)

Acute dermal toxicity LD50 Rat: 2,830 mg/kg (External MSDS)

Skin irritation

Rabbit

Result: slight irritation

(RTECS)

Eye irritation
Rabbit

Result: Eye irritation

(RTECS)

Causes serious eye irritation.

Specific target organ systemic toxicity - single exposure

The substance or mixture is not classified as specific target organ toxicant, single exposure.

Specific target organ systemic toxicity - repeated exposure

The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

Aspiration hazard

Regarding the available data the classification criteria are not fulfilled.

## Carcinogenicity

IARC No ingredient of this product present at levels greater than or

equal to 0.1% is identified as probable, possible or confirmed

human carcinogen by IARC.

OSHA No ingredient of this product present at levels greater than or

equal to 0.1% is identified as a carcinogen or potential

carcinogen by OSHA.

NTP No ingredient of this product present at levels greater than or

equal to 0.1% is identified as a known or anticipated carcinogen

by NTP.

ACGIH No ingredient of this product present at levels greater than or

equal to 0.1% is identified as a carcinogen or potential

carcinogen by ACGIH.

#### **Further information**

After uptake of large quantities:

Nausea, Vomiting, Dizziness, Shortness of breath, gastric pain

Further data:

Other dangerous properties can not be excluded.

Handle in accordance with good industrial hygiene and safety practice.

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

# **SECTION 12.** Ecological information

### **Ecotoxicity**

Toxicity to fish

LC50 Lepomis macrochirus (Bluegill sunfish): > 11.3 mg/l; 96 h (Hommel)

Toxicity to daphnia and other aquatic invertebrates

EC50 Daphnia magna (Water flea): 4.11 mg/l; 48 h (Hommel)

Toxicity to algae

IC50 Scenedesmus capricornutum (fresh water algae): 1.87 mg/l; 96 h (Hommel)

# Persistence and degradability

Biodegradability

62.6 %; 28 d; aerobic

(Hommel)

Not readily biodegradable.

# Bioaccumulative potential

No information available.

#### Mobility in soil

No information available.

Additional ecological information

Discharge into the environment must be avoided.

#### **SECTION 13. Disposal considerations**

The information presented only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. Disposal should be in accordance with applicable regional, national and local laws and regulations.

## **SECTION 14. Transport information**

Land transport (DOT)

UN number UN 3077

Proper shipping name ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID,

N.O.S.

Class 9
Packing group III
Environmentally hazardous ---

Air transport (IATA)

UN number UN 3077

Proper shipping name ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID,

N.O.S. (TRIOCTYLPHOSPHINE OXIDE)

Class 9
Packing group III
Environmentally hazardous --

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

Special precautions for user no

Sea transport (IMDG)

UN number UN 3077

Proper shipping name ENVIRONMENTALLY HAZARDOUS SUBSTANCE, SOLID,

N.O.S. (TRIOCTYLPHOSPHINE OXIDE)

Class 9
Packing group III
Environmentally hazardous -Special precautions for user
EmS F-A S-F

## **SECTION 15. Regulatory information**

#### **United States of America**

#### **SARA 313**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### **SARA 302**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

## **Clean Water Act**

This product does not contain any Hazardous Substances listed under the U.S. CleanWater Act, Section 311, Table 116.4A.

This product does not contain any Hazardous Chemicals listed under the U.S. CleanWater Act, Section 311,

Table 117.3.

#### **DEA List I**

Not listed

#### **DEA List II**

Not listed

# **US State Regulations**

## Massachusetts Right To Know

Remarks

No components are subject to the Massachusetts Right to Know Act.

# California Prop 65 Components

This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

according to the (US) Hazard Communication Standard (29 CFR 1910.1200)

Product number 814868 Version 1.2

Product name Trioctylphosphinoxide for synthesis

**Notification status** 

TSCA: All components of the product are listed in the TSCA-inventory.

DSL: All components of this product are on the Canadian DSL.

KOREA: Not in compliance with the inventory

#### **SECTION 16. Other information**

## Training advice

Provide adequate information, instruction and training for operators.

#### Labeling

Hazard pictograms

Signal Word Warning

Hazard Statements

H319 Causes serious eye irritation.

H411 Toxic to aquatic life with long lasting effects.

Precautionary Statements

Prevention

P273 Avoid release to the environment.

Response

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

#### Full text of H-Statements referred to under sections 2 and 3.

H319 Causes serious eye irritation.

#### Key or legend to abbreviations and acronyms used in the safety data sheet

Used abbreviations and acronyms can be looked up at www.wikipedia.org.
