

## VascuLife® EnGS-Mv Microvascular Endothelial Cell Culture Medium Specification Sheet

### VascuLife EnGS-Mv Cell Culture Medium

VascuLife EnGS-Mv (containing Endothelial Cell Growth Supplement) is optimized for the culture of Human Microvascular Endothelial Cells. VascuLife supports the rapid proliferation of these cells in a 5% serum environment.

VascuLife Basal Medium contains no antimicrobials and no phenol red. Lifeline offers antimicrobials and phenol red; however, they are not required for eukaryotic cell proliferation.

### VascuLife Cell Culture Medium Components

VascuLife is offered in a kit format composed of basal medium and associated supplements and growth factors called "LifeFactors®." This kit allows you to prepare fresh medium in your laboratory, extending shelf life and enhancing performance. VascuLife Basal Medium is provided in a light-protected 500 mL

bottle. The remaining LifeFactors (growth factors and supplements) are packaged in a convenient gas-impermeable pouch for easy storage.

Product	Part No.	Volume	Final Concentrations in Supplemented Medium	Storage
<b>VascuLife EnGS-Mv Medium Complete Kit, (VascuLife Basal Medium, VascuLife EnGS-Mv LifeFactors Kit)</b>	<a href="#">LL-0004</a>			2-8°C when prepared
<b>VascuLife Basal Medium</b>	<a href="#">LM-0002</a>	475 mL		2-8°C
<b>VascuLife EnGS-Mv LifeFactors Kit</b>	<a href="#">LS-1035</a>			-20°C
Ascorbic Acid LifeFactor	<a href="#">LS-1005</a>	0.5 mL	50 µg/mL	-20°C
Hydrocortisone Hemisuccinate LifeFactor	<a href="#">LS-1007</a>	0.5 mL	1 µg/mL	-20°C
L-Glutamine LifeFactor	<a href="#">LS-1013</a>	25 mL	10 mM	-20°C
rh EGF LifeFactor	<a href="#">LS-1015</a>	0.5 mL	5 ng/mL	-20°C
Heparin Sulfate LifeFactor	<a href="#">LS-1017</a>	0.5 mL	0.75 U/mL	-20°C
rh EnGS LifeFactor	<a href="#">LS-1018</a>	1 mL	0.2%	-20°C
FBS LifeFactor	<a href="#">LS-1028</a>	25 mL	5%	-20°C
Antimicrobial Supplement: Gentamicin and Amphotericin B <i>(Provided with purchase of LL-0004)</i>	<a href="#">LS-1104</a>	0.5 mL	Gentamicin 30 mg/mL Amphotericin B 15 µg/mL	-20°C
Optional Supplements	Part No.	Volume	Concentrations of Supplement	Storage
Phenol Red Supplement	<a href="#">LS-1009</a>	1 mL	33 mM	RT
Other Recommended Products		Part No.	Unit	Storage
Normal Human Coronary Artery Endothelial Cells (HCAEC)		<a href="#">FC-0032</a>	500,000 cells/mL	-150°C
Normal Human Dermal Microvascular Endothelial Cells, neonatal (HD-MVEcn)		<a href="#">FC-0042</a>	500,000 cells/mL	-150°C

## Quality Testing for Guaranteed Consistency and Reproducible Results

Lifeline Cell Technology manufactures products using the highest quality raw materials and incorporates ISO style quality assurance in every production run. Exacting standards and production procedures ensure lot-to-lot consistency. Every production lot of VascuLife® EnGS-Mv Medium is extensively tested using Microvascular Endothelial Cells. VascuLife EnGS-Mv Medium and Gentamicin-Amphotericin B ([LS-1104](#)) are cell culture tested separately.

- |                     |  |              |                 |
|---------------------|--|--------------|-----------------|
| • Sterility Testing | Negative for bacterial and fungal growth | • Osmolality | 270 +/- 10 mOsm |
| • pH                | 7.8 +/- 0.3                              | • Endotoxin  | < 0.5 EU/mL     |
| • Cell Testing      | Rate of proliferation and morphology     |              |                 |

VascuLife EnGS-Mv Medium grows Human Microvascular Endothelial Cells (MVEC) without the addition of human VEGF at rates that meet or exceed other commercially available serum-containing media while maintaining excellent cell morphology. In comparisons with other commercially available media, VascuLife shows superior proliferation at different seeding densities.

*Shown left:* Human Dermal MVEC, passage 2, 4 days after inoculation with 5,000 cells/cm<sup>2</sup> (100X).

*Shown below:* Human Dermal MVEC inoculated at low seeding density in 24-well plates. Higher fluorescence represents a greater number of cells per well and therefore better proliferation.

## The Lifeline® Guarantee

Lifeline's rigorous quality control ensures sterility and performance to standardized testing criteria. Upon request, Lifeline will provide lot-specific QC test results, material safety data sheets and certificates of analysis. See complete guarantee/warranty statement at [lifelinecelltech.com](http://lifelinecelltech.com) or contact your Lifeline representative for more information.

## Innovative Packaging Features

Lifeline has made significant improvements to traditional medium packaging.

- The specially designed shrink label works as a light barrier to help protect medium from light damage.
- A barrier sleeve helps protect the medium from contaminants found in the water bath.
- Lifeline is an environmentally friendly company. Our cell culture media bottles are recyclable and we ship all products with biodegradable packing material.

## Safety Statement

This product is for Research Use Only. This product is not approved for human or veterinary use, or for use in *in vitro* diagnostics or clinical procedures.
