

Rabbit Polyclonal Antibody to Progesterone Receptor

Catalog No.:	RP 146, RP 146-05
Applications:	Analyte Specific Reagent. Analytical and Performance characteristics are not established. Optimal working conditions must be determined by the end user.
Immunogen:	A synthetic peptide derived from the C-terminal of human progesterone receptor.
Host:	Rabbit
Format:	Purified immunoglobulin fraction of rabbit antiserum against PgR protein containing sodium azide as a preservative.
Specificity:	Human PgR exists in two forms: 116kDa (B-form) and 81kDa (A-form). It acts as a ligand activated transcription factor to regulate expression of target genes. Null mutation in the PgR gene leads to pleiotrophic reproductive abnormalities.
Positive Control:	Breast carcinoma
Cellular Localization:	Nuclear
Storage:	Store at 2-8°C. Do not use beyond the expiration date stated on the label.

ASR: Analyte Specific Reagent
