BLCAM Polyclonal Antibody

CATALOG NO: 3363-30T 30 µg (Trial size)

3363-100 100 µg

HOST: Rabbit

IMMUNOGEN: Synthetic peptide surrounding amino acid 85 of

human BLCAM (ID# BV-363)

SPECIES REACTIVITY: Human, Mouse, Rat

FORMULATION:

0.2 mg/ml affinity purified rabbit anti-BLCAM polyclonal antibody in phosphate buffered saline (PBS), pH 7.2, containing 30% glycerol, 0.5% BSA, 0.01% thimerosal.

STORAGE CONDITIONS:

Store at -20°C. For long term storage, aliquot and freeze at -70°C. Avoid repeated freeze/defrost cycles.

BACKGROUND:

Cell adhesion molecules (CAMs) are a family of closely related cell surface glycoproteins involved in cell-cell interactions during growth and are thought to play an important role in embryogenesis and development. BLCAM α and BLCAM β are produced by alternative splicing of the CD22 gene and form a heterodimer that mediates B cell-B cell interactions.

APPLICATIONS:

The antibody can be used for Western blotting (0.5-4 μ g/ml). Based on researchers feedback, it can also be used in immunoprecipitation (5-10 μ g/ml), and immunohistochemistry (10-20 μ g/ml). However, the optimal conditions should be determined individually. Blocking peptide is available separately (Cat. 3363BP-50).

FOR RESEARCH USE ONLY! Not to be used on humans.
